Corporate Relations Centre (CRC): Vision and Mission

The Corporate Relations Centre at United Group of Institutions assisted by a dedicated committee of academicians, trainers, counselors, and student volunteers envisages working in a coordinated manner to enhance life skills and strengthen three broad areas:

- A. Building Corporate Connections
- B. Training, Guidance and Counselling
- C. Placement and Career Development

Building Corporate Connections

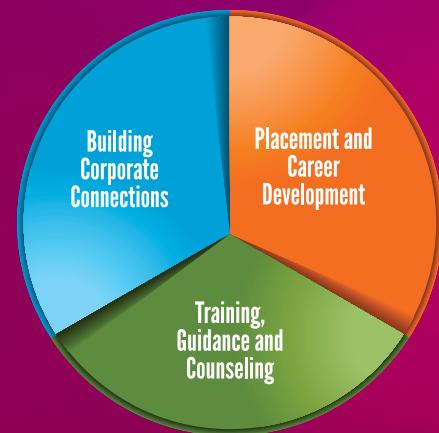

CRC primarily plays a significant role in building a meaningful, beneficial and continued relationship with Corporate Companies and Industrial Associations/Bodies nurturing and enhancing the areas of Research, Education, Skill-Development, Placement and Consultancy in close coordination with all internal stakeholders.

Training, guidance & Counseling

The Centre strives to enhance students' skills and employability via 'Employability Skills Enhancement Program' (ESEP) that offers support and guidance to students in finding suitable career opportunities after their graduate program.

Placement and Career Development

Prime and ultimate aim of CRC is to make the students placed in competitively reputed IT, core manufacturing, infrastructure, FMCG, Banking, Research organisation etc. right at the campus itself. United gives importance for placement activities, skill-mapping and intensive trainings so as to ensure the students get suitable career choices after successfully completing the program.

- Air conditioned conference room and cabins for Group Discussions and Interviews
- Exemplary State-of-the-art huge digital library and Sports Complex

why • where • what • how • who

do we make our students employable

Employability Skill Enhancement Program (ESEP)

Under the wide umbrella of ESEP, Corporate Relations Centre at UGI offers its students a set of 'transferable skills' that are not specific to one particular career path but are generic across all employment sectors. CRC knows the current market trend & its needs and also its students' interests & potential. With this understanding and emphasis upon a mix of skills required, ESEP offers all the in-campus opportunities to the career seekers of United:

01

Verbal Ability Program (VAP)

Verbal Ability Program (VAP) is a unique feature of CRC which gets motivation from the alarmingly need of improvement in English Proficiency / Communication & Aptitude along with the other Soft Skills, which often limit students' chances of landing a job. Verbal Ability Program (VAP) at UGI provides regular training to the students from 1st to 5th Semester for their Hard and Soft Skills Development.

02

Campus Recruitment Training (CRT)

Campus Recruitment Training (CRT), a significant training lead by in-house full-time professional trainers is the obvious solution to unlock students' verbal, numerical, analytical and logical skills. It is designed for job-specific training that starts from 6th Semester. The passionate team of experienced trainers makes the students work upon their Intelligence Quotient (IQ) covering Numerical, Analytical and Reasoning skills along with English Proficiency and also their Emotional Quotient (EQ) covering their Attitude, Communication, Interpersonal and decision-making skills. CRT is found to be a very effective tool for empowering especially the final year students with the 'Attitude' and 'Ethics' making them ready to face the interviews for various in-campus and off-campus drives.

03

Technical Training (TT)

Another new practice for 3rd year students is free of cost In-campus 'Technical/Industrial Trainings' for different streams / branches lead by outsourced trainers having industry experience and pulse of Corporate World and who can deliver their corporate experiences, share inside secrets and tips on the business world, explain what is not covered in theory and how to apply theory in real life.

04

Gate 2 Gate @ UGI

Spread across 6th to 8th Semesters, this spiral model of **GATEWAY TO 'GATE'** is an ideal preparatory forum governed by a team of in-house and outsourced trainers for those students, who aim to qualify GATE and go for higher studies or PSUs.

why • where • what • how • who

do we make our students employable

Here comes the subsidiary role of CRC which is to act as an interface between the students and potential employers / companies and to act as a facilitator and counselor for training and placement related activities such as:

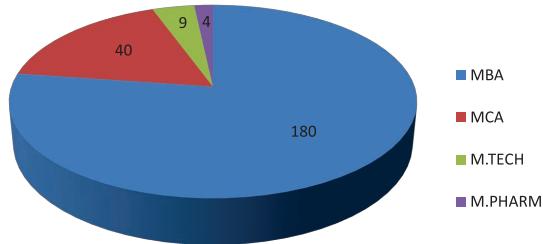

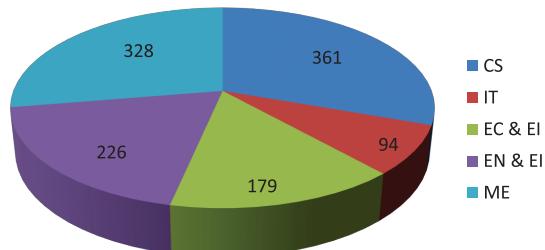

- Pre-Placement Seminars (PPSs) and Pre-Placement Interviews (PPIs)
- The Training & Placement office provides the infra-structural facilities to conduct group discussions, tests and interviews besides catering to other logistics
- Access to valuable data and resources, compiled question bank based on the recruiters' test papers
- Exposure to Value-Added Courses and Life – Skills
- Industrial Visits / Guest Lectures / Expert Talks
- Practice sessions, Mock Tests and Interviews
- Group Discussions with both general and technical topics
- Counseling on CV preparation and Personal Grooming just before a student faces the interview
- Entrepreneurial Workshops/Sessions
- Mentoring and Monitoring for the Internships, Summer Training and Projects
- Co-Cubes Platform

We have partnered with Co-Cubes – An AON Company that provides a platform through which hiring process is smooth and practical. It's Diagnostic and Assessment Tools not only assess and diagnose our students but also provide job opportunities to our students. Smarter Codes, Think & Learn, Click Labs, Amazon Development Centre India Pvt. Ltd., U-Certify, Grid Infocom, S M Creative Electronics Ltd., Lagnam InfoTech Solutions (P) Ltd, Creative Lipi, Franscisan Solutions, Ozone Labs and Maq Software are few of jobs offered.

Global Exposure for Global future

United Group of Institutions has academic collaborations with the International University / Institutions, which has provided an umbrella for internationality, innovation, integration, information, technology and industrial partnership to all the bright souls of the group.

Signing up of MoU (Memorandum of Understanding) with Asian Institute of Technology (AIT), Bangkok, Thailand, being the first initiative in this endeavor has opened the doors for Global exposure and Global future of Unitians. More than 550 students have already participated in 'Summer Education Workshop' at AIT and entering into its 8th plan is ready to send good number of identified, talented and technology-driven future leaders from across the UGI in the year 2018. AIT collaboration provides an exchange platform for the students, faculty members with joint research projects, joint cultural programs/projects and joint conferences.

As a next step in this direction, MoU with the Missouri University, Columbia, USA, provides with a framework for a partnership agreement ensuring close cooperation and coordination of effort concerning training, exchange of experts and scholars, participation in joint conferences etc.

At University of Missouri, 15 Unitians participate in an exclusive 3 week summer program every year, which provides them exposure to the best of the facilities Missouri University have to offer.
